MATERIAL SAFETY DATA SHEET Lice Good-Bye

Fairy Tales Hair Care, inclurges each customer or recipient of this MSDS to study it carefully to become aware of and understand the hazards associated with the product. The reader should consider consulting reference works or individuals that are experts in ventilation, toxicology and fire prevention, as necessary or appropriate to use and understand the data contained in this MSDS.

To promote safe handling, each customer or recipient should: (i) notify its employees, agents, contractors and others whom it knows or believes will use this material or the information in this MSDS and any other information regarding bezards or safety; (2) furnish this same information to each of its customers for the product, and (3) request its customers to notify their employees, customers and other users of this product information.

Section 1-Chemical Product & Company Identification

Trade Name: Lice Good-live

CAS Name: Mixture

Product Description: A concentrated non-bacterial, readily biodegradeble enzymatic solution.

Manufacturer's Name: Fairy Tales Hair Care,inc

Address: P.O. Box 3157 Wayne NJ 07674 Phone: 973 473-8182

Section 2-Composition/Information On Ingredients

Lice Good-Bye is a proprietary composition NO? CONSIDERED FAZARDOUS under the OSHA Hazard

Communication Standard CFR Title 29 1910.1200.

Section 3-Physical And Chemical Properties

Vapor Pressure: <0.01 mm Hg @ 68 degrees F. (20 degrees C.)

Vapor Density (air = 1) >

Specific Gravity: 1.000-1.010 (a) 77 degrees F. (25 degrees C.)

Solubility in water: Soluble Volatite Organic: Negligible

Content:

Appearance: Transfucent, orange-brown liquid

PH: 3.25-4.20@ 77 degrees F. (25 degrees C.)

Evaporation Rate: <0.0i *N-butyi acetate + I Weight; \$4-8.5 lb./gallon (3.8 kg/liter)

Odor: Mil

Section 4-Fire Fighting Measures

Planamable Properties: Non-Flammable*Flash point*>212 degrees F.

Method used: Open Cup

Flammable Limits: Does not apply Hazardous Combustion: None known

Products:

Extinguishing Method: Water fog or fine spray, carbon dioxide, dry chemical foam

Fire Fighting Instructions: Wear self-contained breathing apparatus and protective

clothing. Use water to cool containers. Turn off electrical service to eliminate source of ignition.

Materials Safety Data Sheet*

(This MSDS is for reference only for the dilution of this product once performed by the customer; acceptable dilution materials include clean fresh tap water, distilled, D.I., or RO water.)

4/20/2009

Section 1- Identification of the Substance/Preparation and the Company/Undertaking

Trade Name: Fairy Tales Sleep Tite Bed Bug Spray

Revised: 04-15-09 CAS Name: Mixture

Product Description: Minimum risk posticide Manufacturer's Name: Fairy Tales Hair Care, Inc Address: 90 Dayton Ave, Passaic NJ 07055 For Technical Support: 888 244-1990

Section 2 - Composition/Information on Ingredients

Active Ingredients:	CAS#	WT.%	Exposure Limits
Sodium Lauryl Sulfate	151-21-3	.99	None Established
Sodium Chloride	9005-46-3	0.33	None Established
Potassium Sorbate	24634-61-5	0.04	None Established
Other Ingredients			
Water	7732-18-5	_	None Established
Yeast	68876-77-7		None Established
Acetic Acid	64-19-7		None Established

Mixture conforms to 40 CFR 152.25 (g)(1&2) as a minimum risk pesticide; see concentrate Bed Bug Terminator for registration information.

Section 3- Physical and Chemical Properties

Solubility in Water: Soluble

Volatile Organic Content: Negligible Appearance: Translucent tannish liquid

pH: 3.5 · 4.2 @ 77°F (25° C)

Weight: 8.4 – 8.6 lb/gallon (1.0 - 1.1 Kg/liter)

Odor: Characteristic

Section 4 - Fire Fighting Measures

Flammable Properties No Data on: Flash point, Auto-ignition, Flammability Class,

Lower Explosive Limit, and Upper Explosive Limit.

Flammable Limits: Docs Not Apply Hazardous Combustion: None Known

Extinguishing Media: Water fog or fine spray, carbon dioxide, dry chemical or foam.

Fire Fighting Instructions: Do not enter enclosed/confined workspaces without proper protective equipment. Wear self-contained breathing apparatus and protective clothing. Turn off electrical service to eliminate source of ignition.

Section 5 - Accidental Release Measures

Action: Restrict persons not wearing protective equipment from areas of spills or leaks until cleanup is complete. Remove ignition sources and ventilate area.

Large Spill: Contain spill. Prevent runoff from entering drains, sewers or streams. Dispose in accordance with all applicable federal, state and local health and environmental regulations.

Small Spill: Contain spill. Follow same procedure as above for large spill.

Section 6 – Hazards Identification & First Aid Measures HMIS HAZARD RATINGS

Health - 1 Fire + 0 Reactivity - 0 Personal Protection - See Section 8

Routes of Entry: Product may enter the body via eye contact, skin contact and ingestion.

Potential Health Effects: N/A; Get medical attention if irritation occurs.

Eye: Eye contact with product may cause imitation. Avoid eye contact with product.

FIRST AID MEASURES

Eye Contact: Flush eyes with a directed stream of water while holding eyelids apart to ensure a complete rinse.

Skin Contact: Rinse skin and wash with soap and water. If clothing is penetrated, remove clothing. Wash clothes before reuse.

Ingestion: Give 2 glasses of water. If a substantial amount is ingested, as with any non-edible liquid, contact your poison control center.

Inhalation: Remove to fresh air or air out the area sprayed prior to re-populating.

Section 7 - Stability and Reactivity

Mazardous Polymerization: Hazardous polymerization will not occur.

Materials to Avoid: Avoid contact with strong oxidizing and reducing agents.

Conditions to Avoid: See Section 9.

Hazardous Decomposition Products: Not Known, See Section 6.

Section 8 - Exposure Controls, Personal Protection

Personal Protection

Gloves: Wear gloves when handling this product to avoid contact for people with sensitivities.

Safety Glasses: Splash goggles are recommended to avoid contact for people with sensitivities.

Section 9 - Handling and Storage

Storage Temperature: Store this product below 120° F (49° C), preferably below 75° F (24° C), in a cool, dry, well ventilated area away from heat, sparks, flame, oxidizets and out of direct sunlight. For best results use within 12 months.

General Precautions: Keep container closed when handling or storing.

Section 10 - Other Information

Disclaimer: This product has not been registered by the United States Environmental Protection Agency. Fairy Tales Hair Care, the represents that this product qualifies for exemption from registration under the Federal Insecticide, Fungicide and Rodenticide Act. The information contained herein is based on data considered accurate. However, no warranty is expressed or implied regarding the accuracy of this data or the results to be obtained from the use thereof. Fairy Tales Hair Care, Inc assumes no responsibility for personal injury or property damage to the Vendee, Users or Third Parties caused by the material. Such Vendees or Users assume all risks associated with the use of this material.

Hazardous Identification Information:

Poisonous! Danger! May be fatal if swallowed. Harmful if inhaled or absorbed through skin. Vapor is Harmful. Flammable! Affects central nervous system. Causes irritation to skin, eyes, and respiratory tract. May affect liver, blood, reproductive system.

WARNING! Contents FLAMMABLE! Do not spray near open flame or while smoking. Do not smoke until hair is fully dry. Avoid spraying in eyes. If eye contact occurs, rinse promptly with plenty of water. Do not store at temperatures above 120° F. KEEP OUT OF REACH OF CHILDERN. Use only as directed. Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

Alcohols
N.O.S. Ethanol/Acctone

ΓV.	FIRST AID MEASURES:
1 7 .	LIVOL WID MIDWOOMPO!

EYE CONTACT: Liquid and vapor may cause irritation. Splashes may cause temporary pain and blurred vision. Remove Contaminated Clothing. Clean before reuse Flush immediately with cool running water for at least 15 to 20 minutes, separating eyelids with fingers. Consult a physician.

<u>SKIN CONTACT</u>: May cause irritation, cracking, flaking, and de-fatting of skin on prolonged contact. Remove contaminated clothing. Clean before rease. Wash with soap and water, then rinse with water. Consult a physician

INITALATION: May cause irritation to the mucous membranes of the upper respiratory tract. Exposure over 1000 ppm may cause headache, drowsiness, lassitude, loss of appetite, inability to concentrate, and throat irritation. Immediately remove to fresh air. If victim has stopped breathing give artificial respiration, preferably mouth-to-mouth. Get medical attention immediately.

INGESTION: Can cause depression of Central Nervous System, nausea, vomiting, diarrhea, intoxication, and in acute cases can cause death. May be harmful or fatal if swallowed. Conscious or able to swallow—Have victim drink water or milk to dilute. Never Give Anything By Mouth If Unconscious or Convulsing. Call a Physician and / or Poison Control Immediately. Induce vomiting only if advised by the Physician or Poison Control. Immediate medical attention may be necessary.

<u>CHRONIC EFFECTS</u> OF EXPOSURE: Damage may occur to heart, kidneys and liver. People with pre-existing skin disorders, eye problems, or impaired kidney or liver function bay be more susceptible to effects.

V. EXPOSURE CONTROL MEASURES

Ventilation is needed where vapors escape to workplace air.

EYE PROTECTION: Safety Glasses and / or Full Face Shield where spiashing is possible.

SKIN PROTECTION: Impervious clothing including boots, gloves, lab coat, apron, or coveralls as appropriate.

OTHER PROTECTIVE EQUIPMENT: Eyewash Station and Safety Shower.

RESPIRATORY PROTECTION: Air purifying respirator, NIOSII approved

VENTILATION: Sufficient exhaust to keep concentration below 1000 ppm

VI: FIRE AND EXPLOSION HAZARD DATA

FLASH POINT: 20 C CC

Lower Explosive Limit: (Ethanol) 3.3%
Upper Explosive Limit: (Ethanol) 19.0%

<u>EXTINGUISHING MEDIA</u>: Use Dry Chemical: Alcohol Foam, Carbon Dioxide. Water may be ineffective but water should be used to keep fire-exposed container(s) cool.

SPECIAL FIRE FIGHTING INSTRUCTIONS: If leak / spill has not ignited, use water spray to disperse vapors and protect people attempting to stop the leak. Water spray may be used to flush spills away from exposure and to dilute spills to non-flammable mixtures. In the event of a fire, wear full protective clothing and NiOSH-approved self-contained breathing apparatus with full facepiece in pressure demand or other positive pressure mode. Water can be used to extinguish flames and cool fire-exposed containers.

UNUSUAL FIRE AND EXPLOSION HAZARDS: Above flashpoint, vapor—air mixtures are explosive. Vapors can flow along surfaces to ignition sources and flash back. Sealed containers may rupture when heated. Sensitive to static discharge. Alcohol flames may be difficult to see because they are virtually colorless. Combustion products include but not limited to Carbon Dioxide and Carbon Monoxide. Vaporizes easily at room temperatures. Prevent buildup of vapors.

ACCIDENTAL RELEASE MEASURES:

Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate protective equipment. Isolate hazard area. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriated container or absorb with an inert material (Vermiculite, dry sand, earth, ect.) and place in a chemical waste container. D NOT use combustible materials, such as sawdust. Do Not flush to sewer!

VII: Physical and Chemical Properties:

BOILING POINT: N/A FLASHPOINT: 12° C

MELTING POINT: N/A VAPOR PRESSURE: N/A

SOL. IN WATER: Completely SPECIFIC GRAVITY: 0.847 - 0.851 @ 22° C

pH: 2-10 EVAPORATION RATE: N/A

VAPOR DENSITY: N/A

APPEARANCE/ODOR OF FINISHED PRODUCT: Clear yellow liquid with a pleasant fragrance

VIII: STABILITY AND REACTIVITY DATA:

STABILITY: Stable under normal conditions.

<u>INCOMPATIBILITY</u>: (Materials to avoid) Strong Oxidants, Silver Salts, Acid Chlorides, Aikali Metals, Metal Hydrazine, and many other substances.

DECOMPOSITION/ BT PRODUCTS: Carbon Dioxide, Carbon Monoxide.

HAZARDOUS POLYMERIZATION: None

IX. ENVIRONMENTAL & DISPOSAL INFORMATION

ACTION TO TAKE FOR SPILLS/LEAKS: Ventilate area of leak or spill. Remove all sources of ignition. Wear appropriate personal protective equipment. Isolate hazard area. Contain and recover liquid when possible. Use non-sparking tools and equipment. Collect liquid in an appropriated container or absorb with an inert material (vermiculite, dry sand, earth, etc.) and place in a chemical waste container. Do not use combustible materials, such as sawdust. Do not flush to sewer.

DISPOSA). METHOD: Dispose of in accordance with all local, state and federal agencies.

X. PRECAUTIONS FOR SAFE HANDLING, STORAGE AND USE

Protect against physical damage. Store in cool dry, well ventilated area. Keep away from heat, sparks, and flame. Avoid contact with eyes. Keep container closed. Use with adequate ventilation, Ground container when transferring. Vapors may collect in containers. Treat empty containers as hazardous. Sudden release of hot organic chemical vapors / mists from process equipment operating at clevated temperatures may result in ignition with out the presence of obvious ignition sources.

XI. SHIPPING INFORMATION

DOMESTIC (LAND D.O.T.)

Proper Shipping Name: Alcohols, N.O.S. (Ethanol/ Acetone)

Hazard Class: 3 (Flammable Liquid)

UN / NA: UN1987 Packing Group: II

Emergency Response Guide # 127

THE SHIPPING CARTON IDENTIFICATION MUST BE LISTED THE SAME AS THE DESCRIPTION ON THE MSDS!!

INTERNATIONAL (Water, I.M.O.)

Proper Shipping Name: Alcohols, N.O.S. (Ethanol/ Acetone)

Hazard Class: 3 (Plantmable Liquid)

Un/NA: UN1987 Packing Group: II

Emergency Response Guide # 127

Ethanol:

Soil: Readily biodegrades, quickly evaporates, leaches into groundwater.

Water: Readily biodegrades, evaporates to moderate extent. Does not bio-accumulate.

Air: Readily degrades by reaction with photo-chemically produced hydroxyl radicals, readily

removed by dry and wet deposition, has a half-life between 1 and 20 days/
